Karl,

On December 6, 2007, Energy West requested permission to use the access road to the Left Fork Rilda Canyon portal site for delivery of can roof supports for some urgent roof support work just inside the portals. Permission was granted that day.

After removing snow from the access road, Energy West had 8 truckloads of cans delivered on Friday, the 28th of December. This completed the road clearing and delivery requested on Dec. 6.

The status of the Left Fork road has returned to the originally stipulated restrictions.

Thanks for your help.

Ken Fleck
Geology and Environmental Affairs Manager
Energy West Mining Company
